CHECK-IN

Is your class international, with students from different cultures?

Design Based Education

By the end of this Erasmus+ Blended Intensive Programme, learners will be able to:

Gain fundamental knowledge about the Internet of Things and cyber security.

Apply this knowledge to diagnose and investigate (apply) cyber threats related to the Internet of Things:

- Diagnose attacks on an organisation's computer systems and networks.
- Apply critical thinking and problem-solving skills to detect current and future attacks on an organisation's computer systems and networks.

Apply business principles to analyse and interpret data for planning, decision-making, and problem solving in an information security environment.

Effectively communicate in a professional setting to address information security issues:

- Communicate orally and in writing, proposed information security solutions to technical and non-technical decision-makers.

By the end of this Erasmus+ Blended Intensive Programme, learners will be able to:

- ✓ **Understand IoT and cyber security fundamentals**
- ✓ **Identify and analyse cyber threats to IoT devices and networks**

- ✓ **Identify and analyse cyber threats to IoT devices and networks**

- ✓ **Analyse and interpret data for effective decision-making.**

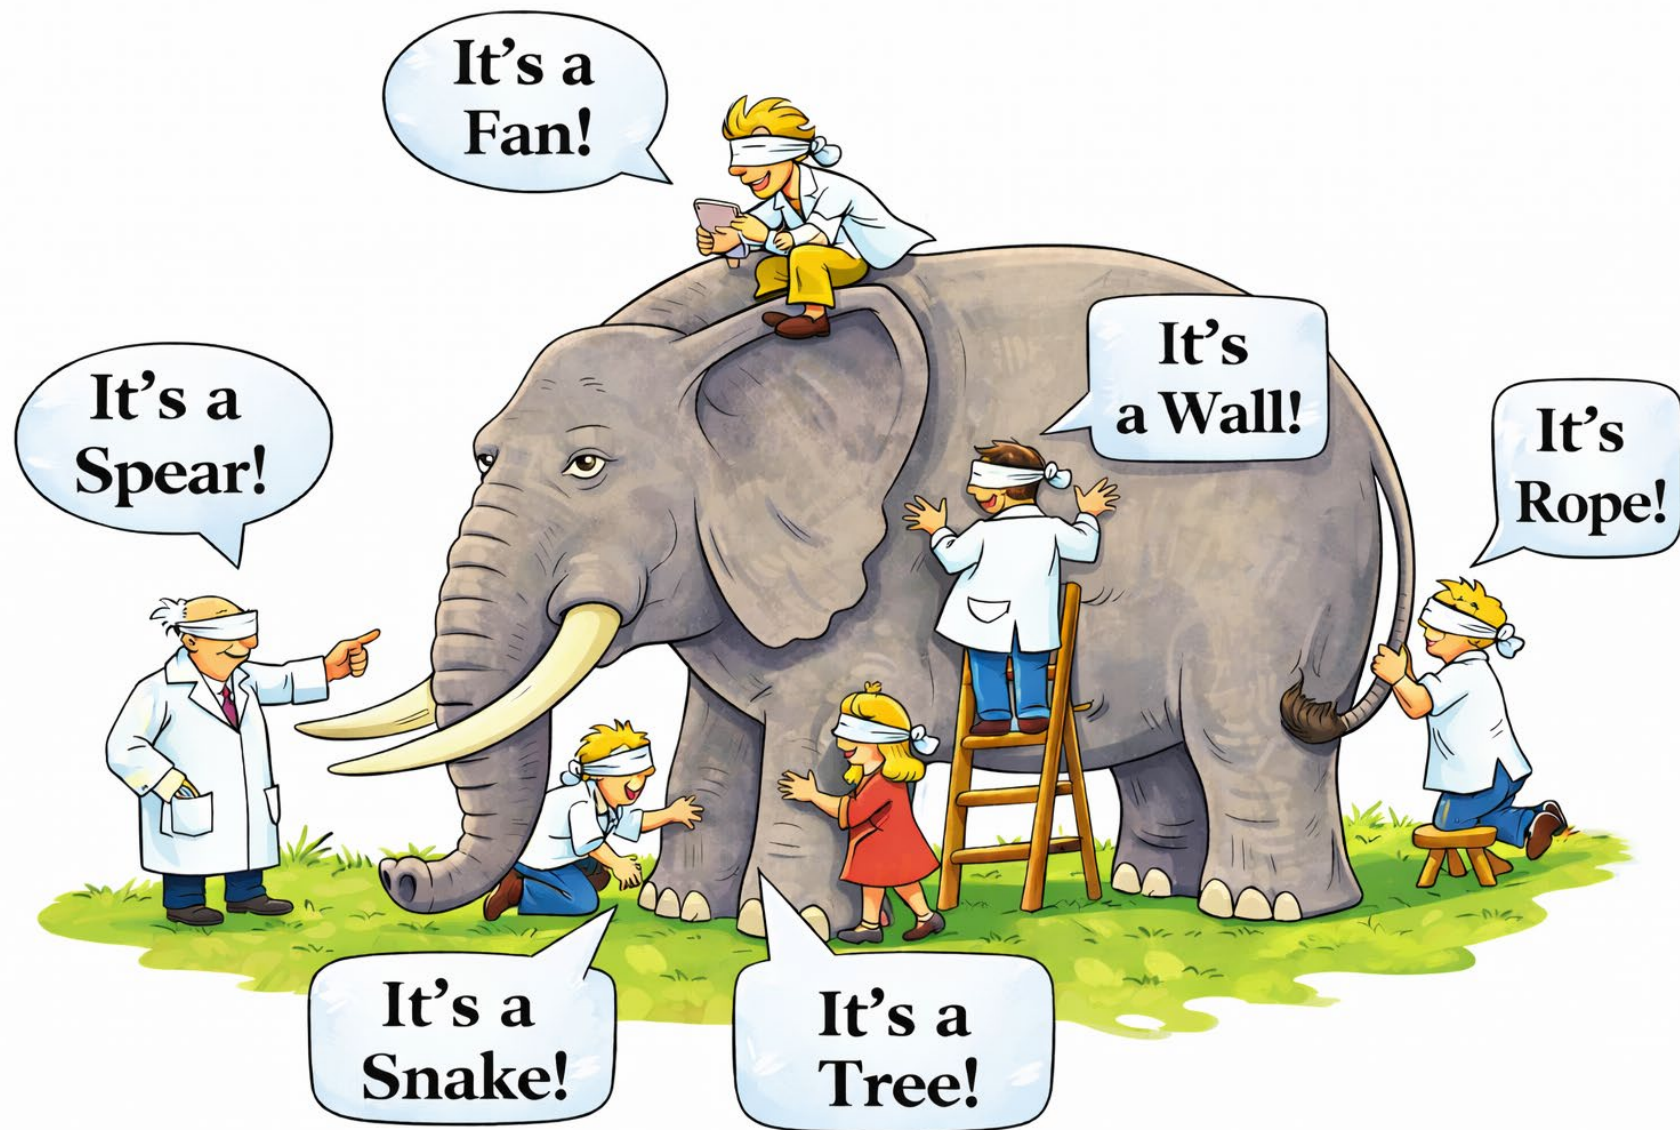

- ✓ **Communicate information security strategies to decision-makers**

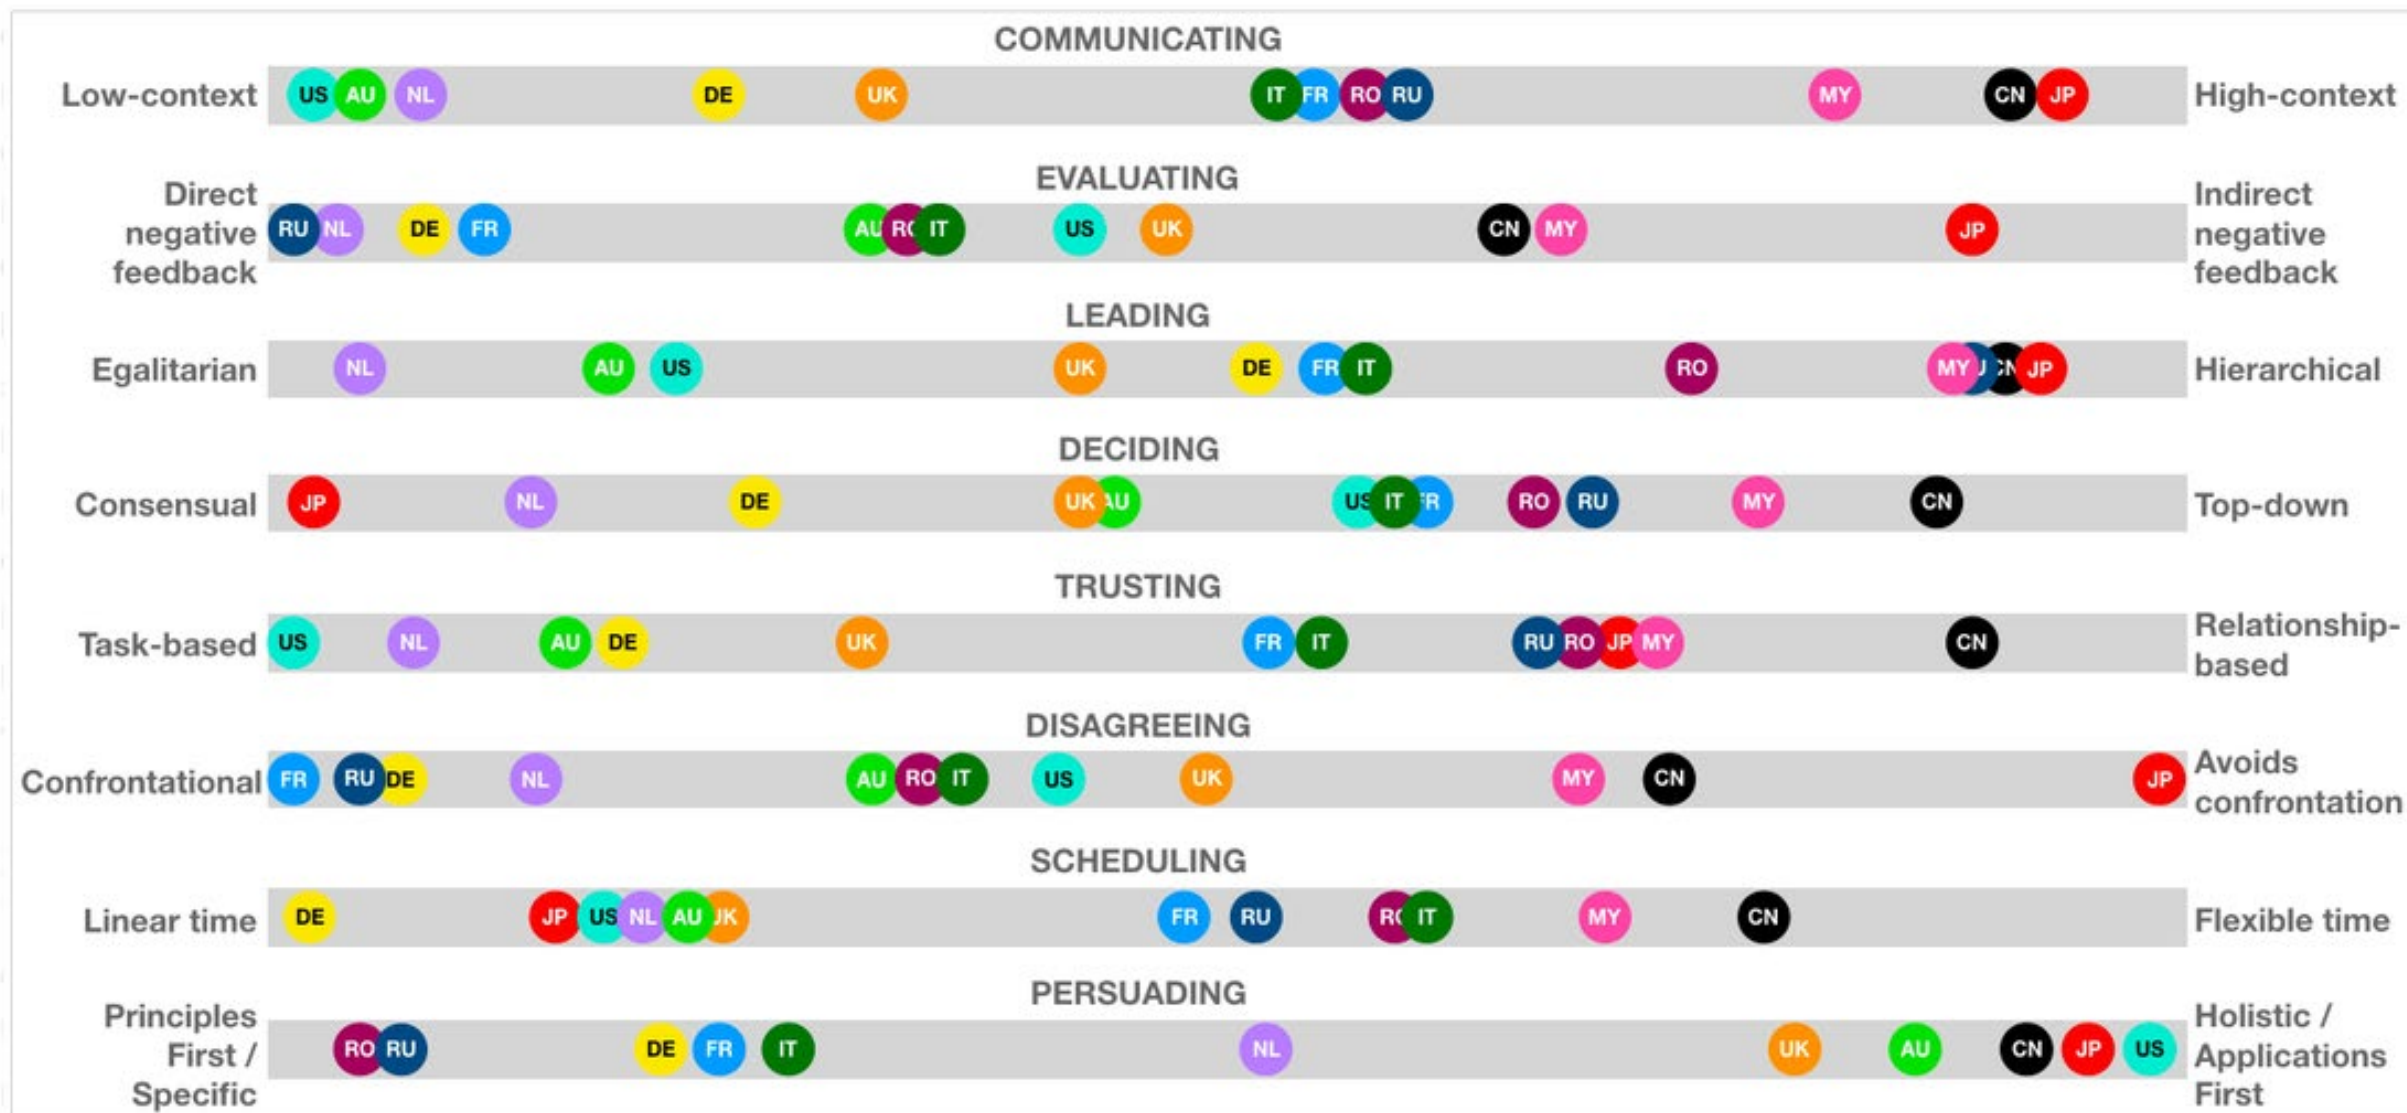

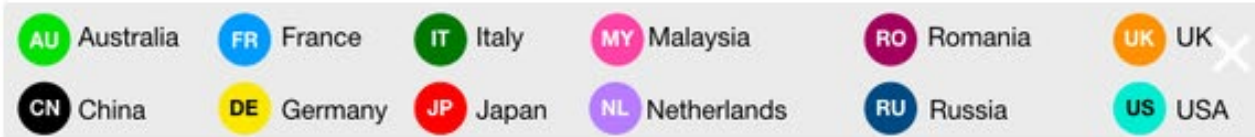

Cultural Lens: Awareness & Self insight

Management Styles Across Different Cultures

! INSTRUCTIONS

Team
introduction

Introduce yourself to your team

Post-it
description

Each member has two post-its, write
your name at the top of yours

Skill
placement

Choose two skills that best represent
your abilities by placing your post-its.

EXAMPLE

Narrator NPC

Able to communicate and get along with people no matter if they are human, robot or ...

Estelle
I successfully taught my pet hamster how to sit

Ctrl+Z Master

Mistakes happen – your skills lies in undoing theme with problem solving

Estelle
I am always the one to restart the computer

Cyborg

People think you are part man and robot due to your key knowledge of IT, technology or ability to develop realistic prototypes

Data Whisperer

You are like Sherlock Holmes, having a key attention to detail and being able to put all the pieces together

Pixel Picasso

Able to merge technology and imagination to come up with creative ideas
